

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

- RE-231 (2)
- (क) यदि वृत्त $x^2 + y^2 - 4x - 6y - k = 0$ को अर्धव्यास 4 एकाइ जाए k को मान पता लगाउनुहोस्।
 If the radius of the circle $x^2 + y^2 - 4x - 6y - k = 0$ is 4 units, find the value of k .
५. (क) यदि $\tan A = m$ र $\tan B = \frac{1}{m}$ भए $(A+B)$ को मान निकाल्नुहोस्।
 If $\tan A = m$ and $\tan B = \frac{1}{m}$, find the value of $(A+B)$.
- (ख) प्रमाणित गर्नुहोस् (Prove that): $\frac{1 + \sin A - \cos A}{1 + \sin A + \cos A} = \tan \frac{A}{2}$
६. (क) प्रमाणित गर्नुहोस् (Prove that): $\frac{\cos A - \cos 5A}{\sin 5A - \sin A} = \tan 3A$
 (ख) हल गर्नुहोस् (Solve): $1 - \tan^2 \theta = -2$ ($0^\circ \leq \theta < 90^\circ$)
७. (क) यदि $\vec{a} = 4\vec{i} + 2\vec{j}$ र $\vec{b} = -\vec{i} + 2\vec{j}$ भए \vec{a} र \vec{b} बीचको कोण पता लगाउनुहोस्।
 If $\vec{a} = 4\vec{i} + 2\vec{j}$ and $\vec{b} = -\vec{i} + 2\vec{j}$, then find the angle between \vec{a} and \vec{b} .
- (ख) A र B बाँ निर्मित वेक्टरहरू क्रमशः $9\vec{i} + 7\vec{j}$ र $\vec{i} - 3\vec{j}$ छन्। यदि AB को मध्यबिन्दु M भए M को निर्मित वेक्टर पता लगाउनुहोस्।
 The position vectors of A and B are $9\vec{i} + 7\vec{j}$ and $\vec{i} - 3\vec{j}$ respectively. If M is the mid-point of AB, find the position vector of M.
८. (क) बिन्दु A(2,5)लाई पहिले x-अक्षमा परावर्तन गर्नुहोस्। प्राप्त प्रतिबिम्बलाई उर्ध्वमण्डलको अक्षिण 90° को घनात्मक दिशामा परिष्कृत्यन गराउनुहोस्। A(2,5) अन्तिम प्रतिबिम्ब पता लगाउनुहोस्।
 Point A(2, 5) is first reflected on x-axis. The image so obtained is rotated through 90° in positive direction about origin. Find the final image of A(2, 5).
- (ख) Y-अक्षमा हुने परावर्तनलाई बताउने स्थानान्तरण मैट्रिक्स पता लगाउनुहोस्।
 Find the transformation matrix which represents the reflection on Y-axis.
- क्रमशः
